Chronic Pain Clinic Intake

We would like to know how much your pain is preventing you from doing what you would normally do or from doing it as well as you normally would.

Respond to each category by indicating the overall impact of pain in your life, not just when the pain is at its worst. A score of 0 means no disability at all and a score of 10 means that all of the activities in which you would normally be involved have been prevented by your pain.

(Pain Disability Index)

**Chronic Pain Clinic Intake**

In these days of high tech medicine, one of the most important sources of information about you is often missing from your medical records; your own feelings or intuitions about what is happening with your body. We hope that the following information will help to fill the gap. Please answer the following questions according to the scale on the right. Please answer according to your true feelings, not according to what others think you should believe. This is not a test of medical knowledge; we want to know how you see it.

|    | Circle the number next to each question that best corresponds to how you feel   | Strongly disagree | Somewhat disagree | Somewhat agree | Strongly agree |
|----|---|-------------------|-------------------|----------------|----------------|
| 1  | I'm afraid that I might injure myself if I exercise.  | 1                 | 2                 | 3              | 4              |
| 2  | If I were to try to overcome it, my pain would increase.  | 1                 | 2                 | 3              | 4              |
| 3  | My body is telling me I have something dangerously wrong.   | 1                 | 2                 | 3              | 4              |
